

A two way table to show how 15 students spent an hour of their evening

	listen to music	watch TV
girls	6	3
boys	5	1

- 1) How many girls were in the survey?
- 2) How many students prefer to listen to music?
- 3) How many boys watch TV?
- 4) What fraction of the group are boys?

$$\frac{6}{15}$$

C

A two way table to show how students travel to school

	bus	cycle	walk	Total
yr 7	10	2	13	25
yr 8	10	12	8	30
yr9	10	6	4	20
Total	30	20	25	75
